## DPW Minutes December 10, 2015 6:02 PM

Present- Kevin P Cunningham-Chairman, Jack Farr-Director, Stan Siegel, Robert Richie, Carl Hendrick

1. The Tri States Bridge and Road Widening Project is in the final stages of getting our design approval (finally). Once the final design documents are approved by the NYSDOT , then the project is a go for design and construction.
2. The Promenade project is still in the DOT office for another approval before we can go out for another bid.
3. The DPW is very busy this time of the year with leaf removal and prepping for the snow season.
4. The Wagner Place sewer replacement project is in full swing and will hopefully be done in a few more weeks. Paving and landscaping to be done spring 2016.
5. The CDBG Sewer replacement project has commenced and survey and engineering is in process at this time. We are hoping for a spring construction start date.
6. The Safe Streets Sidewalk project is still moving forward and with the survey work completed, the Engineers (CHA) can get to work on the design and construction. Hopefully construction will begin summer 2016.

Meeting adjourned-6:32PM
