DPW Minutes June, 15th, 2015 6:30pm

Present Mayor Decker, Chairman Kevin P Cunningham, Jack Farr Director, Jerry Oney, George Belcher, Frank Bell, Stanley Siegel

1. Discussion on possible delay in substantial completion of Water Filtration Clarifier and implications of the delay. Possible 4-6 week extension
2. Discussion on the wall repair at City Hall and the cost. This will involve shared services with the Port Jervis School District in regards to them loaning us labor to help repair the wall. There have been problems finding bricks to match. Several suppliers have been contacted for the most similar colored bricks to complete this project.
3. Discussion and review of the applications for the Water Filtration Plant and the interviews that were conducted. There are 3 applicants at this time. Jack will make a recommendation at the next council meeting.
4. Discussion on the siren removal at the Farnum house and the overtime and equipment needed to accomplish this job. A possible date of July 26, if the city electricians and the Fire Department's ladder truck are available was decided.
5. Discussion on the two hydrants in need of repair versus replacement and the funds it costs for each. It was decided that all 3 will be replaced due to large cost of replacement of repair verses total replacement.

Adjourned 7:00PM
