

Department of Public Works and Environmental Affairs Committee

November 7th, 2016

Present at Meeting:

Jack Farr, DPW Director

Sarah Hendry

George Belcher, Chairman

Gina Fitzpatrick

Mayor Kelly Decker

The meeting was commenced at 6 PM.

Borings were done for the new Neversink River Bridge and the culverts by Chris Marion Park. The Hylas now understand what they can expect because of the new bridge construction. The Hylas and Separak will get some ground back after construction is over. The council will have to accept the EDPL Resolution at its next meeting.

The engineer has been notified to get the process moving on the promenade for a late winter or early spring start. We have notified DOT of our intentions of moving on in regards to the project. Do a single bid analysis due to receiving only one bid. Contact Sun-up to be sure their bid is still viable to them. Next in line will be approvals, contracts and inspection staff. The DPW will have to commit 5 workers and 2 electricians to this project.

We have issues with the City Hall roof. The DPW Director has had a roofing company do a survey of the roof as it is in need of work due to leaks. This roof has three layers which is not a preferred way in doing a flat roof and it is in need of costly work \$215,000 to \$320,000. The EDPM roof is now 15-20 years old. The last job was done over the top of the old roof.

Winter work has begun in regards to sanders, salt/sand mixing, plow servicing, and truck prep.

NYCDEP/NYSDEC has notified us that our section of the new SPDES permit for the sewer treatment is due and needs to be completed. This process includes having testing done on all significant users of our sewer system.

Yearly mandated dam inspections are due by a certified engineer . The DPEW Director has received 2 proposals of \$4,800-\$6,000 by McGoery Hauser amd \$22,350 by Jim Farr. We need a sampling pump for the water plant at a cost of \$1,992.

There was a discussion on the pickup of bagged leaves.

No public comment .

Meeting was adjourned at 7:30 PM.

Next DPW meeting will be December 5th ,2016 at 6 PM in the Council Chambers.
