DPW Meeting Agenda
August 3rd, 2020 6:00pm

1. The sewer relining process is continuing and progressing very well. The main 18” line will be done in September. If unfunded we will be unable to continue relining with current budget levels.
2. The paving prep work has continued onto E Main St with a hopeful time of late August for paving.
3. The tank replacement at the water filtration plant is scheduled and will happen hopefully within the next month. We have also been in contact with a new chemical company to try and save money on a chemical used for coagulation.
4. The valve replacement on the raw water line will be postponed until the Fall due to our current workload and the amount of water being used throughout the City.
5. The new entrance signs are progressing very well in Tri States and on Park Ave.
6. Update on Kingston Ave/Hamilton St traffic light install.
7. Discussion regarding Garbage and recycling costs and fees.
